Rotating and Sealing Equipment

| | |
|--------------------|---|
| AMERICAN MARSH | Self priming pumps, split case pumps, vertical turbine pumps and many more |
| ANSI | Centrifugal pumps including parts to fit Gould, Flowserve & Summit ANSI pumps |
| EBARA | Heavy duty dewatering, submersible sump pumps |
| FINISH THOMPSON | Lined mag-drive pumps and AODD pumps |
| FLEX-A-SEAL | Leading manufacturer of metal bellows and split mechanical seals |
| FLUX | Drum and container pumps, Eccentric worm drive pumps |
| GRACO | Leading manufacturer of electric and air-operated diaphragm and peristaltic pumps |
| LIQUIFLO | Robust mag-drive & Sealed gear pumps in corrosion resistant materials |
| LOTUS MIXERS | Custom-engineered bottom, top and side-entry industrial mixers |
| MAGNATEX | Seal-less, magnetic drive, all-metallic centrifugal & regenerative turbine vane pumps |
| MYERS | General duty submersible and self-priming pumps |
| NOMAD | Leading aftermarket manufacturer of air-operated diaphragm and parts |
| PHILADELPHIA MIXER | Leading Mixer and agitator supplies |
| RICHTER | Superior PFA lined mag-drive and sealed pumps with solids-handling capabilities |
| TOSHIBA | Manufacturer of electrical motors, drives and control panels |
| SULZER | Global leader specializing in pumps, agitators, mixers and separators |
| U.S. SEAL MFG. | Market leader in component seals, supporting a wide variety of applications |

Reliability Accessories

| | |
|---------------|---|
| AMRRI | Lubrication Audit and Training services |
| BLACOH | Fluid control products solving pulsation, vibration, water hammer and surge concerns in industrial pumps |
| BASETEK | Corrosion-resistant foundations & baseplates to fit ANSI and close-coupled pumps |
| FLEX-A-SEAL | Custom mechanical seal and rotating equipment support systems |
| FLEXICRAFT | Reliable flexible piping solutions, Hosecraft USA hoses and Stayflow strainers |
| LOAD CONTROLS | Power monitors for equipment protection |
| LUBE-IT | Software to organize machine lubrication data, ensuring precision lubrication best practices |
| MRI | Intelligent real time condition monitoring that detects/alerts off-design operation, predicts equipment failure |
| RMS | Reliability Management Software - Organizes, manages and improves rotating equipment reliability |
| SAFEMATIC | Seal water control and monitoring devices |
| TRICO | Full line lubrication protection equipment and lubrication management solutions |

Valves and Valve Automation

| | |
|----------|--|
| AMRESIST | Industry leader of corrosion-resistant butterfly and ball valves |
| CLA-VAL | Full line of automatic control valves |
| NIBCO | Butterfly, ball, gate, globe and check valves |
| PMV | Modular positioners, switches and feedback signals |
| RICHTER | Superior PFA lined control, relief and sampling valves |
